About me

Graduated in Computer Engineering, with dual specialization in Information Technologies and Computer Engineering, holding two Cybersecurity master's degrees, one from the University of A Coruña (MUNICS) and another from Deloitte. With two years of experience, currently employed at the Automotive Technology Center of Galicia as a Cybersecurity Engineer, I consider myself deeply passionate about this field and the IoT world, focusing on areas such as pentesting, vulnerability analysis and exploitation, hardening, forensics, as well as requirements and risk analysis. And above all, an ardent technology and security enthusiast with a positive attitude and an eagerness to continue learning and pursue a successful career.

Experience

- | | |
|---|----------------------------|
| Cybersecurity Engineer, Ctag (Centro de la Automoción de Galicia) | May 2023 - Now |
| <ul style="list-style-type: none">Conducted Vulnerability Analysis and Penetration Testing against multiple car prototypes and car systems, identifying and addressing security flaws.Performed validation processes following ASPICE standards.Effectively conducted Security Management audits and wrote reports on the results obtained.Wireless testing such as WiFi penetration tests, RF attacks and BTLe attacks.Conducted requirement analysis and TARA, applying ISO 21434 and UNECE R155.Implemented network security solutions with VPNs, HSM, PKI and Vault infrastructure. | |
| Cybersecurity Engineer, Enxenio | Sep 2022 - May 2023 |
| <ul style="list-style-type: none">Penetration testing and security analysis for web applications.Creation, development, and maintenance of a SOC based on Wazuh.Implementation of continuous integration tools SAST and DAST.Vulnerability Management and audit report generation. | |

Education

- | | |
|--|----------------------------|
| MS in Cybersecurity, Universidade da Coruña (Munics) | Sep 2021 - Feb 2023 |
| <ul style="list-style-type: none">Relevant Coursework: Crypto, Forensics, MobileSec, Malware Analysis, InfoSec, and Law. | |
| MS in Cybersecurity, Deloitte x IMF | Sep 2022 - Sep 2023 |
| <ul style="list-style-type: none">Relevant Coursework: SIEM technology, Ethical Hacking, Reverse Engineering and Secure Development. | |
| Engineering in Computer Science, Universidade da Coruña | Sep 2016 - Jun 2021 |
| <ul style="list-style-type: none">Mention in Information TechnologiesMention in Computer Engineering | |

Licenses & Certifications

- | | |
|---|-----------------|
| Ethical Vehicle Hacker Professional - TÜV NORD | Jul 2026 |
| <ul style="list-style-type: none">ISO/SAE 21434, Penetration Testing, Reverse Engineering | |
| CompTIA Security+ - CompTIA | Jun 2025 |
| <ul style="list-style-type: none">Risk Management, Cryptography, Security Operations | |
| Automotive Cybersecurity Professional - TÜV NORD | Sep 2024 |
| <ul style="list-style-type: none">ISO/SAE 21434, UN R1444, TARA, Threat analysis, Penetration Testing | |

Publications, Technical Experience and Honors

- | | |
|---|-----------------|
| Publications | |
| <ul style="list-style-type: none">Mobile application and monitoring of a dummy for training in emergency medical situations. | Jun 2021 |
| Enhancing a rescue dummy with monitoring technology and a mobile app to visualize vital data, facilitating efficient learning and aiding rescuers with critical information during emergency operations. MH and awarded for the best applied Bachelor's Thesis at the Faculty of Computer Science of A Coruña. | |

- | | |
|--|--|
| Sample of Personal Projects | More projects available on my website |
| <ul style="list-style-type: none">Researched [IoT and Camera Hacking], studied UAV GPS security and created a Twitter bot and a Shopping bot using Python. | |
